## 2013 CPP / FPC Exam Preparation

How many times have you thought about going for  
it??!!

Even if you don't take the exam, the education to your  
professional career is invaluable.

Session Begins: June 1, 2013 thru September 14, 2013

The CPP is required for many payroll positions. Companies are realizing that with all the new laws and regulations the Payroll department holds a more complex and important function. In order to compete, it has become increasingly necessary for payroll personnel to be more educated. The roll of payroll has moved away from simple technician to that of a knowledgeable professional able to research complex issues, stay current on legislative matters and regulatory compliancy, plus be able to wade through paycheck calculation and perform and understand accounting responsibilities.

Whether **CPP** (Certified Payroll Professional) or **FPC** (Fundamental Payroll Certification), the designation is now more important than ever before. Let us help you, and your staff, achieve the goal of Certified Payroll Professional.

**Registration must be completed and paid in full by May 11, 2013 in order to receive the early bird discount. Regular ticket fees will start on May 12, 2013. Walk in registrations will incur a \$ 25 late fee in addition to the ticket price. No exceptions.**
